

CENTREFEED DISPENSER SINGLE SHEET ADAPTOR

Controlling paper consumption, single hand use, reduce cross contamination and save cost on paper usage

For use with perforated paper

MODULAR LARGE CENTREFEED DISPENSER

MYRIAD CENTREFEED DISPENSER

MYRIAD CENTREFEED DISPENSER

The centrefeed dispenser is a space-saving dispenser that fits perforated centre-pull rolls and is designed for areas that require fast access to towels. We now offer a single sheet adaptor, which restricts the number of paper sheets pulled at any one time, to one paper sheet. The single sheet adaptor is available in two versions to be used for stronger or weaker papers. The adaptor fits into both the Modular and Myriad centrefeed dispensers.

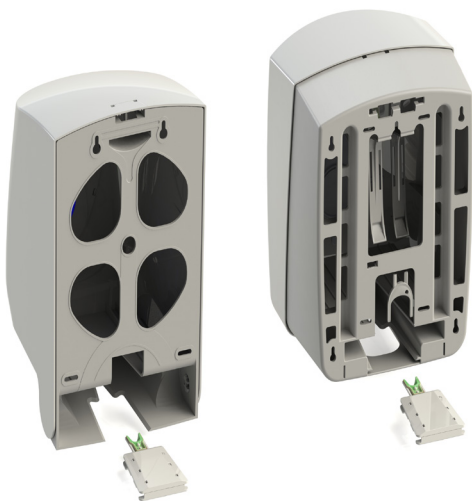

KEY FEATURES

The single sheet adaptor mechanism minimises paper waste and environmental impact

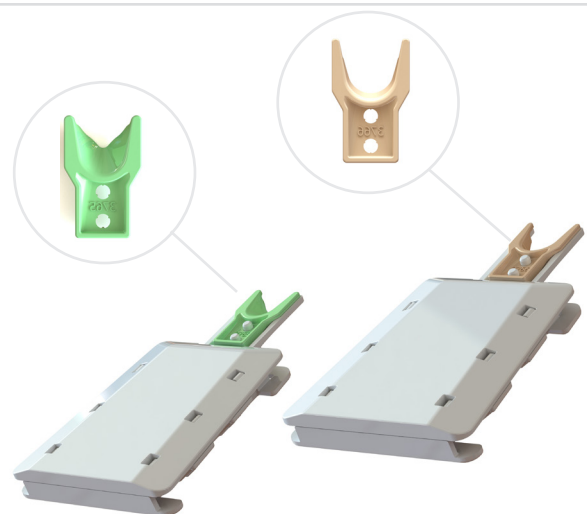

The adaptor makes it easier for the dispenser to be operated with one hand

The adaptor pack comes with a green and orange adaptor to choose from, for different weight paper

Instruction sheet is included in the adaptor pack for easy installation and maintenance
